Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The rejection of claims 1-19 and 22-24 under 35 U.S.C. 103(a) as being unpatentable over McCall U.S. Patent 5, 277,899 or Li et al U.S. Patent 5,580,819 each in view of AU 199915321 is withdrawn. Because: the present application has a priority date of May 26 1999. The AU 199915321 has a Publication date on June 15 1999. Therefore, AU 199915321 is not available as a reference since the present application has a priority date.
2. References of record to McCall and Li et al do not raise a prima facie case of unpatentability with respect to a block polymer suds stabilizer having specified cationic unit of the chemical structure (I), wherein said block polymer has an average cationic charge density of about 5 or less units per 100 daltons molecular weight at a pH of from about 4 to about 12, and wherein said block polymer has an average molecular weight of from about 35,000 to about 750,000 daltons.
3. Claims 1-19 and 22-24 are deemed to contain allowable subject matter.
4. Allowed claims 1 and 11 are generic to a block polymer suds stabilizer comprising a plurality of disclosed nitrogen-containing cationic units. Allowed dependent claim 9 is a linking claim. Claim 9 includes all the limitations of species of nitrogen-containing cationic units. Allowed independent claim 12 discloses a block polymer suds stabilizer comprising a terpolymer of the first block of cationic monomeric units (A), the second monomeric unit (B), and a third monomeric unit (C). Claims 20 and 21 are directed to the species that were previously withdrawn from consideration as

a result of the restriction requirement. Upon the allowance of claims 1, 9, 11 and 12 the restriction requirement of the species is hereby withdrawn. Claims 20 and 21 are rejoined and fully examined for patentability under 37 CFR 1.104.

5. Claims 1-24 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 25-47, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 25-47 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper No. 5 (mailed on 07/24/01) is hereby withdrawn.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is relevant to show the state of the art knowledge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
